WERSJA RHD ! na RYNEK SAMOCHÓDÓW Z kierownią po prawej stronie - .UK !!!

HIGH-PERFORMANCE EXHAUST MANIFOLD
BMW M50/M52/M54 TURBO ENGINE - RHD .UK version - max flow ! max power

We now offer great quality exhaust manifold for turbo conversion RHD (.UK)

BMW M50/M52/M54 engine. e36 / e46 / e30 / e34 - please send info - withch option and turbo install.

TWINSCROOL OR SINGLESCROOL !!!
Need using holset hx35 hx40 or borgwarners TWINSCROOL TURBO?
NEED TWINSCROOL MANIFOLD FOR GOODsWORKS !

 MADE IN UE, full custom !
Made of 304T stainless steel
Great solution for drifting, drag and other turbocharged bmw.
Each product has been stress tested - because only power and quality matters
Top mount type
Made of high grade steel

Extreme 3 Custom k64 spec TURBO RHD .UK MANIFOLD M50 M52 M54 T3 T4 M50B25 M50B28 M52B28 M54B30 E46 E39 E34 E30 E36

Each exhaust manifold has been pre-heated - it means that all material tensions that may occure during welding are no longer existing - cracking of that kind of product is almost impossible

1/8" NPT socket for the external EGT probe

You can use it with following engines: M50, M52, M54 in E30, E36, E38, E39 or E46 chassis

This is the best option for RHD cars - compact size of our product will give you more space for turbo downpipe etc. AND MAX FLOW !

In conjunction with our exhaust manifold you can use some of the most popular turbochargers like GT28, GT30, GT3582, Holset HX35, HX40, BWS200SX Borg S300sxe GT35.30 ,

Thanks to special construction of our product you will be able to use typical performance air filter - not a poor quality and flow filter gauze

WG valve pipe is located in the AC compressor place - AC has to be uninstalled or we can sell you option without WG outlet - you can skip it when turbo has got internal WG or weld WG pipe in appropriate place to keep AC.
